The Honorable Glenn Coffee, President Pro Tempore of the Senate

I am pleased to present to you the 2008 Annual Report of the Oklahoma Insurance Department.

This report is established by the provisions of Oklahoma Statutes Title 36 § 307 and summarizes the activities of the Oklahoma Insurance Department through the period ending Dec. 31, 2008.

In addition to the required financial disclosures and listing of companies operating in Oklahoma, this report highlights the work of the Oklahoma Insurance Department on behalf of Oklahoma taxpayers.

Sincerely yours,

Kim Holland

Oklahoma Insurance Commissioner

The Oklahoma Insurance Department is accredited by the National Association of Insurance Commissioners (NAIC). To achieve this accreditation, the Department must meet stringent national standards that demonstrate it effectively regulates insurance companies for solvency.

Commissioner Holland and the staff of the Oklahoma Insurance Department view accreditation by the NAIC as an important

part of our commitment to the citizens of Oklahoma. Accreditation standards enable us to provide expanded consumer protections and to institute and maintain the highest standards in financial regulation. NAIC repeats the accreditation review every five years to confirm that the Oklahoma Insurance Department continues to meet all requirements. The Department was most recently accredited in December 2004.

Oklahoma Weather

In 2008, Oklahoma experienced another year of interesting and severe weather and the Oklahoma Insurance Department made certain that adjusters were on the ground to resolve property and auto claims as quickly as possible.

Severe weather resulted in eight federal disaster declarations, including five presidentially declared major disasters. This brings Oklahoma's total to 62 since the federal government began declaring disasters back in 1953.

The most notable storm of 2008 was the deadly May 10th tornado in Picher that killed six residents. The tornado destroyed a 20-block area and blew mining waste dust off several chat piles in the town that had already been designated a Superfund cleanup site. The tornado was part of a system that stretched from Oklahoma to Missouri and ultimately killed 21 people.

Oklahoma experienced more than 77 confirmed tornados during 2008.

In addition, severe flooding, hail and wind storms damaged property in nearly every county of the state including severe storms and flooding during the period of June 3-20 that covered almost all of Western and Northern Oklahoma; a rain storm that flooded parts of Canadian County in August; and tornadoes and flooding in Alfalfa, Cimarron, Dewey, Ellis, Grant, Harper, Kay, Major, Woods and Woodward Counties that occurred September 12-16.

As a result, the Insurance Department issued 12 Emergency Declarations, paving the way for non-resident adjusters to obtain emergency licenses to enter the state and assist citizens with their claims.

When storms and disasters damage property in Oklahoma, the Insurance Department works hard to help our citizens recover and move on.

State Coverage Initiative

As 2008 came to a close, a team of policymakers, medical professionals, business leaders, insurers and citizen advocates was putting the finishing touches on the basic framework of the most comprehensive plan in state history to provide Oklahoma's uninsured population with access to affordable health coverage.

The Oklahoma State Coverage Initiative (SCI) Strategic Plan is the product of a two-year planning process funded by the Robert Wood Johnson Foundation. Since 2007, the SCI Core Team along with hundreds of other Oklahomans have worked tirelessly to research and develop five strategies aimed at reducing the number of uninsured Oklahomans.

Successful implementation of the plan would dramatically reduce Oklahoma's uninsured population of 630,000 and move our state from one of the worst to among the best in the number of residents with the medical security provided by health insurance.

Although the SCI funding grant is set to expire July 31, 2009, the Core Team will spend 2009 finalizing the plan for successful implementation.

OLD IMPORTANT MOMENTS IN 2008

Anti-Fraud Unit handles variety of cases, investigations

The Anti-Fraud Unit is a CLEET-certified law enforcement arm of the Oklahoma Insurance Department. Each year, the Anti-Fraud Unit reviews hundreds of cases, investigates and collaboratively shares information with other law enforcement organizations and refers criminal acts to prosecutors. Operating under the direction of the Commissioner, the team moves quickly to protect Oklahoma citizens from insurance fraud and abuse. The 2008 cases highlighted below represent some of the cases the team works on each year.

Fraud Type: False Insurance Claim

Investigation Summary: In July 2008, an individual was involved in an auto accident in a 1995 Geo and was cited for operating a vehicle without an insurance verification form. In August, he presented a manually transcribed insurance verification form to the Caddo County Clerk's office. The County Clerk's office determined the verification form was altered and false by speaking with the insurance agent listed on the form. The individual had previously been insured through the agent under a policy on a 1986 Chevrolet Camaro. The policy had expired in February 2002. Investigators from the Insurance Department interviewed the person who admitted he had found the verification form in the trunk of his car and had changed the make and model of the automobile on the form and presented it to the County Clerk.

Results of Investigation: The accused pleaded guilty to creating a false insurance verification form and was sentenced to seven years in prison.

Fraud Type: False Insurance Claim

Investigation Summary: An individual was employed by the Southern Oklahoma Livestock Association where part of her duties involved filing insurance claims for injury or death to livestock while in the possession of the association. Between April 2004 and February 2005, the individual filed numerous false insurance claims under fictitious names, fraudulently receiving more than \$30,000. She was interviewed by Insurance Department investigators and admitted her role in the scheme and agreed to cooperate with the Department in the investigation of other possible fraudulent activities taking place at the association.

Results of Investigation: The accused pleaded no contest to the charge of filing a false claim for insurance and, as a result of her cooperation, was sentenced to a five-year deferred sentence.

Fraud Type: False Insurance Claim

Investigation Summary: An individual owned and operated a custom cabinet and case business in Alva. In September 2007, his business was destroyed in a fire. He submitted an insurance claim for a 1957 Les Paul guitar valued at \$12,250 he claimed had been destroyed in the fire. The person claimed the guitar was a gift for a customer and that he was in the process of building a custom case for it. The insurance company paid the individual \$10,000—the policy limit—for the loss of the guitar. Following up on discrepancies in his claim, the insurance company's fraud investigation unit suspected the individual never actually had possession of the guitar and asked the Oklahoma Insurance Department to investigate the claim further. Investigators from the Department determined that he never had possession of the guitar and it had not been destroyed in the fire.

Results of Investigation: In October 2008, the accused pleaded guilty to the felony of obtaining cash by false pretense and received a five-year deferred sentence and was ordered to pay restitution to the insurance company.

OKLAHOMA RECEIVES \$2.5 MILLION SHARE OF MARTIN FRANKEL ASSETS

Oklahoma received \$2.5 million as part of the \$72 million in Martin Frankel's assets seized by the Internal Revenue Service and the Federal Bureau of Investigation.

Frankel defrauded seven insurance companies in five different states of more than \$200 million before fleeing the United States in 1999. He was later arrested and returned to the United States. Frankel pleaded guilty to insurance fraud, racketeering and money laundering and has been sentenced to nearly seventeen years in federal prison.

Frankel's assets were seized and sold and the resulting funds placed in forfeiture accounts, which were ordered to be turned over to the receivers of the insolvent insurance companies. Including the \$2.5 million received from the forfeiture, Commissioner Holland helped recover more than \$3.8 million in the Frankel case.

March

CONSUMER GROUP GIVES ‘EXCELLENT’ RATING TO OKLAHOMA INSURANCE Department WEB SITE

Oklahoma was among six states rated as having one of the best insurance Department Web sites in the nation according to a recent report issued by the Consumer Federation of America.

The report, “State Insurance Department Websites: A Consumer Assessment,” analyzed 51 insurance Department Web sites (all states plus Washington, D.C.) to determine whether consumers can use the information to comparison shop for auto and home insurance. The study also sought to determine how well each state provides the resources necessary to aid consumers in resolving claims, filing complaints or requesting assistance from the Department.

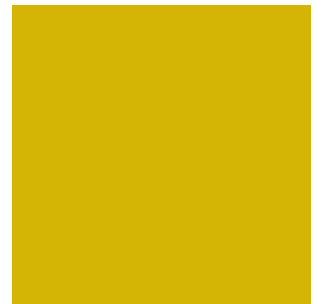

Oklahoma was specifically cited as an example of a leader among states with smaller populations. Among the important features of Oklahoma’s Web site, the survey noted the ability to compare rates for auto and home insurance, to find helpful tips on making informed choices, to locate rating information about insurers, and to file complaints.

INSURANCE Department HOSTS FOURTH SUMMIT ON HEALTH INSURANCE COSTS

Oklahoma Insurance Commissioner Kim Holland hosted the fourth annual “Summit on the High Cost of Health Insurance” at the Oklahoma History Center in Oklahoma City to address topics that impact health care costs.

The Summit brought together more than 150 participants, including citizens, healthcare providers, business, government, insurers and policymakers with the common purpose of ensuring all Oklahomans have access to quality health care and affordable health insurance.

Kim Holland

Insurance Commissioner

Kim Holland is the first woman elected Insurance Commissioner in Oklahoma state history. Elected to office in 2006 after being appointed by Gov. Brad Henry in January 2005 to fill an unexpired term, Holland has restored the integrity of the Insurance Department, bringing honesty and a vision of a completely transparent Department. A business woman and active civic volunteer before becoming insurance commissioner, she has a proven track record of consumer advocacy over more than two decades as an insurance professional.

Dedicated to serving consumers, Holland has expanded and improved the Insurance Department's responsiveness to Oklahoma citizens. Under her leadership, the Oklahoma Insurance Department has enhanced its accessibility through toll-free consumer hot lines, improved Internet communication and outreach programs across the state.

Insurance fraud prevention and protection are at the forefront of Commissioner Holland's priorities. She successfully worked to obtain law-enforcement status for the Department's Anti-Fraud Unit, allowing for more aggressive pursuit of wrongdoing. Since 2005, the Oklahoma Insurance Department has recovered millions of dollars for Oklahoma citizens.

A long-time advocate for affordable health insurance, Holland continually works to reduce costs and expand access to coverage. She is a former board member of the Oklahoma Health Care Authority and the Oklahoma State Employees Benefits Council. Her professional and public policy experience in health care and health insurance provides a strong backdrop to her commitment as commissioner to lead health policy reforms that guarantee all Oklahomans access to affordable healthcare coverage.

Commissioner Holland is the recipient of the statewide 2007 Public Service Champion of Health, which recognized her contributions to reducing the number of uninsured in our state.

Accredited reinsurer is an insurance company that indemnifies, for a premium, another insurance company against all or part of the loss that it may sustain under its policy or policies of insurance. The reinsurer, while not an “admitted” company, is “accredited” and must submit data comparable to that of a company seeking admittance.

Discount medical plan organization contracts, on behalf of plan members and in exchange for fees or dues, with a provider or provider network for access to medical services at a discounted rate. Discount medical plans are not insurance products.

Life settlement/viatical broker is an intermediary who brings together a policyowner wishing to sell a policy and a provider seeking to purchase it.

Life settlement/viatical provider serves as the purchaser in a life settlement transaction and is responsible for paying the client a cash sum greater than the policy’s cash surrender value.

Motor service club, a for-profit or non-profit organization, provides certain vehicle-related benefits which vehicle drivers or owners can enjoy.

Multiple employer welfare arrangement (MEWA) allows a group of employers collectively to offer health insurance coverage to their employees. A MEWA is most often found among employer groups belonging to a common trade or industry association or professional association.

Pre-paid funeral benefit organization assists individuals in the prearrangement of funeral services in exchange for the prepayment of the service. The prepaid funeral contract is negotiated between the buyer of the contract and the providing funeral establishment and may be funded through a prepaid funeral trust, annuity or insurance policy assignment.

Professional employer organization (PEO) provides outsourcing of payroll, workers’ compensation, human resources and employee benefits administration.

Purchasing group is a group of policyholders with similar risks who may group together to purchase liability insurance.

Risk retention group is a company licensed to provide liability insurance and is owned by its policy holders. Membership is limited to people in the same business or activity, spreading the liability exposure to group members. A Risk Retention Group provides an alternative risk financing mechanism for liability but is not covered by the Guaranty Association.

Service warranty association is licensed to issue service warranty contracts. Warranty contracts are agreements entered into between consumers and the service warranty association and include terms that cover the cost of repair or replacement of a product.

Surplus lines insurer offers property and casualty insurance coverage that is not available from insurers licensed in the state. Examples of surplus coverage include risks of an unusual nature, risks that exceed the indemnity limits of licensed insurance carriers and risks where the highest premium rates allowed by state regulators are considered inadequate by admitted companies. The surplus carrier, while not an “admitted” company, is authorized to transact business on a “non-admitted” basis and must submit a yearly request for approval. Surplus coverage is not protected by the Oklahoma Life and Health Guaranty Association.

Third party administrator (TPA) is an organization that collects premium and adjusts and settles insurance claims for life or health insurance coverage, annuities or employee benefit stop loss. Under this arrangement, a TPA is performing a task traditionally handled by the company providing the insurance.
