Insurance Department assists insurers, consumers through severe weather

Severe weather plagued Oklahomans in 2007 with significant ice storms in January and December, tornadoes in March and May, and floods in August. Throughout the year, Commissioner Holland expedited consumer access to adjusters, helping insurers resolve property and auto claims quickly and accurately.

The January 2007 storm brought ice to many parts of Oklahoma including the capitol complex.

When Oklahoma communities suffer from weather-related disasters, the Oklahoma Insurance Department works hand-in-hand with Gov. Brad Henry, Oklahoma Emergency Management, and other state and federal agencies to assist Oklahomans in their recovery.

During 2007 several federal disasters were declared, and FEMA opened temporary offices in Oklahoma. In response to those declarations, the Oklahoma Insurance Department sent staff to the temporary office in northeast Oklahoma to answer insurance questions and give needed assistance.

During the December ice storm, the Oklahoma Insurance Department suffered extended power outages that affected large parts of the state. Commissioner Holland established a temporary command center at another state agency, and Oklahoma Insurance Department services were fully operational within 48 hours of the initial power loss. Holland toured some of the most affected neighborhoods in Oklahoma City with Gov. Henry and other state and business officials. Additionally, she organized a relief effort among insurers to help provide much-needed supplies to the Red Cross shelter in Payne County.

Anti-Fraud Unit handles variety of cases, investigations

The Anti-Fraud Unit is a 12-person law enforcement arm of the Oklahoma Insurance Department. Each year, the anti-fraud team reviews hundreds of cases, investigates and collaboratively shares information with other law enforcement organizations, and refers criminal acts to prosecutors. Operating under the direction of the Commissioner, the team moves quickly to protect Oklahoma citizens from insurance fraud and abuse. The 2007 cases highlighted below represent the diversity of cases the team works on each year.

Fraud Type: False Insurance Claim

Investigation Summary: An auto insurance company reported that one of its insureds called in September 2006 to reinstate his vehicle insurance policy. The next day the same insured called to file a claim for damages to the car, and the company immediately began processing his claim. Soon thereafter, the company received a call on its fraud hotline from the insured's co-worker, who reported the insured bragged about his plan to defraud the insurance company. The insured had claimed he accidentally drove into water so deep it covered the windows of his vehicle. Our investigation uncovered that the truck was pulled from the river and then towed to the insured's place of employment one full week before the insured claimed it happened and six days before he was insured.

Results of Investigation: Defendant pled guilty to filing a false claim for insurance and was given a four-year deferred sentence with 12 months of supervision by the district attorney's office.

Fraud Type: Annuity and Identity Theft

Investigation Summary: The Coalition Against the Financial Exploitation of the Elderly reported a situation involving a senior citizen and an insurance agent who persuaded the senior to purchase an unnecessary long-term care policy and lend him money from two annuities she owned. In addition, the agent took funds from her money market account without permission and opened a credit card in her name for his personal use.

Results of the Investigation: Commissioner Holland permanently revoked the agent's license, assessed the maximum fine allowed by state law, and referred the matter to the police department for further investigation.

Fraud Type: Falsifying an Insurance Claim

Investigation Summary: A unique case investigated by the Oklahoma Insurance Department involved an insurance claim and an animal. The insured called his insurance company to report that his horse, insured by the company for \$175,000, died. To verify the animal's value, documentation was required from the prior owner. A bill of sale was produced indicating the horse was actually sold for \$7,500. The insurance company then contacted the current owner and asked for a copy of the cancelled check in the amount of \$175,000. The current owner said, actually, the price was \$150,000. The owner sent a copy of a check made out to the previous owner in the amount of \$150,000 and provided a copy of the reverse side of the check. Further investigation determined the current owner's check never cleared the bank. In fact, the check copies were of two different checks.

Results of the Investigation: Based on these findings, a warrant was issued for the current owner's arrest. He pled guilty to falsifying an insurance claim and was sentenced to 1 to 5 years deferred with four consecutive weekends in county jail.

Fraud Type: False Insurance Claim

Investigation Summary: An insured claimed his 1999 Dodge Intrepid was damaged by a hit-and-run in a shopping center parking lot just five days after a policy was purchased. A security video showed that the insured vehicle was not in the parking lot at the time of the alleged hit-and-run. The investigation revealed two previous claims for damage to the insured vehicle had been filed in 2004, and the damage was never repaired. Comparison of the current damages with the photos of the previous damages showed that the damages were the same.

Results of the Investigation: As a result of the investigation, charges were filed in Oklahoma County District Court. The individual pled guilty to the criminal felony, was sentenced to three years' probation, and required to pay all court costs.

Online licensing system good for users, Oklahoma, environment

When Commissioner Kim Holland took office in January 2005, she directed the Oklahoma Insurance Department leadership team to develop a more cost effective and efficient method to process the nearly 100,000 resident and non-resident producer and adjuster license applications and renewals received. After consulting with the National Association of Insurance Commissioners, other state regulators and the insurance community, the Department selected a Web-based licensing system called Sircon for States.

The Department's new system opened for public use on April 24, 2007. Since implementation, more than 70 percent of new resident and non-resident license applications and more than 80 percent of resident and non-resident renewals are submitted and completed online. On January 1, 2009, every license issued by the Department's Agents Licensing Division will be available for application and renewal online.

In addition to improving our standard for customer service to the nearly 100,000 resident and non-resident producers and adjusters, the new system saves the Department an estimated 9,000 employee work hours each year, which translates to more than \$170,000 taxpayer dollars annually.

Converting to electronic processes has allowed the Oklahoma Insurance Department to focus more resources on serving Oklahoma citizens. The new processes have greatly reduced the amount of paper used by the Department and have reduced the cost for records storage.

Oklahomans encouraged to CHAT about health care, benefits, costs

Public policy initiatives springing from Commissioner Kim Holland's Summit on the High Cost of Health Insurance began to take shape in 2007. One of the key recommendations from the Summit involved the development of a lower cost, core health benefit plan.

During the 2007 legislative session, House Concurrent Resolution 1010 established the Core Health Benefit Task Force, charged with exploring the scope of coverage that can and should be offered under a low cost, basic health insurance policy. The Oklahoma Insurance Department was charged with providing the task force with information necessary for the formulation of its recommendations.

Chaired by Sen. Susan Paddock, the task force met throughout the year and reviewed information gathered about Oklahoma's uninsured population.

The task force addressed many key issues related to the creation of an affordable basic health plan including:

- target populations for coverage
- existing and necessary state and federal statutes
- scope of coverage
- effective use of universally accepted evidence-based medical protocols
- patient-centered medical homes to ensure access to care
- medical provider quality improvement opportunities

To enhance the task force's deliberations, Commissioner Holland engaged Oklahoma citizens in the discussion. Beginning in August, the Oklahoma Insurance Department embarked on a 12-week process of public education and opinion gathering through a computer simulation called Choosing Healthplans All Together (CHAT). The CHAT program engaged small groups of Oklahomans in a discussion about the elements of health plans and employed a consensus-building mechanism to gauge the decision-making process Oklahomans use when choosing a health plan.

In December the Core Benefit Task Force issued a report to Gov. Henry and legislative leaders. The report offered a number of recommendations for the creation of an affordable health insurance plan for all Oklahomans. This work continues.

Oklahoma receives \$200K SCI grant to develop core health benefit plan

Expanding upon the Basic Health Benefits Task Force efforts to provide access to affordable health insurance, a team of statewide leaders led by Commissioner Holland pursued and received a \$200,000 planning grant from the Robert Wood Johnson Foundation as a part of the foundation's State Coverage Initiatives (SCI) program.

Announced in fall 2007, the grant covers an 18-month period, during which the team is working with a broad stakeholder group to ensure all Oklahomans have access to high quality health care in addition to affordable health insurance. Commissioner Holland partnered with Gov. Brad Henry, Commissioner of Health Dr. Michael Crutcher, lawmakers in Oklahoma's House and Senate, and the OU College of Public Health to develop the grant proposal.

Oklahoma was one of 14 states selected to participate in the SCI program. State health care and health policy experts and community leaders met with experts from the Robert Wood Johnson Foundation to assess current challenges, analyze strategic policy options and refine current state-specific plans.

Oklahoma's team members include Holland; Sen. Tom Adelson; Sen. Brian Crain; Sen. Susan Paddack; Rep. Doug Cox; Rep. Danny Morgan; Dr. Mike Crutcher, Commissioner of Health; Mike Fogarty, Executive Director, Oklahoma Health Care Authority; Commissioner Terri White, Oklahoma Dept. of Mental Health and Substance Abuse Services; Melissa Gower, Cherokee Nation Health Services; Dr. Rodney Huey*, President, Blue Cross/Blue Shield of Oklahoma, with the assistance of Dr. Gary Raskob and Dr. Peter Budetti, both with the University of Oklahoma's College of Public Health; and Dr. R. Murali Krishna, Integris Health.

*(Dr. Huey passed away in December 2007)

Kim Holland

Insurance Commissioner

Kim Holland is the first woman elected Insurance Commissioner in Oklahoma state history. Elected to office in 2006 after being appointed by Gov. Brad Henry in January 2005 to fill an unexpired term, Holland has restored the integrity of the Insurance Department, bringing honesty and a vision of a completely transparent department. A business woman and active civic volunteer before becoming insurance commissioner, she has a proven track record of consumer advocacy over more than two decades as an insurance professional.

Dedicated to serving consumers, Holland has expanded and improved the Insurance Department's responsiveness to Oklahoma citizens. Under her leadership, the Oklahoma Insurance Department has enhanced its accessibility through toll-free consumer hot lines, improved Internet communication and outreach programs across the state.

Insurance fraud prevention and protection are at the forefront of Commissioner Holland's priorities. She successfully worked to obtain law-enforcement status for the Department's Anti-Fraud Unit, allowing for more aggressive pursuit of wrongdoing. Since 2005 the Oklahoma Insurance Department has recovered millions of dollars for Oklahoma citizens.

LICENSED INSURANCE COMPANIES

The following section illustrates basic financial and other pertinent information concerning the approximately 1,500 insurers licensed as admitted carriers by the Oklahoma Insurance Department. An insurance company that wishes to conduct business in Oklahoma is approved to do so only after thorough review of its financial condition, record of consumer-related conduct, and any other matters that the Oklahoma Insurance Commissioner deems relevant.

Most insurance policies written in Oklahoma are protected by a Guaranty Association, established to protect policyholders in the event an admitted company becomes financially insolvent.

Definitions:

Assets: The value of items owned that represent probable future economic benefits to a company.

Liabilities: The future sacrifices of economic benefits arising from present obligations.

Capital & Surplus: The difference between the company's assets and its liabilities. This figure acts as a measure of net worth.

Oklahoma Premium: The amount paid by Oklahoma policyholders for insurance from the company.

Oklahoma Claims: The amount paid by the company to its Oklahoma policyholders from obligations arising from the company's insurance policies.

OTHER REGULATED ENTITIES DEFINITIONS

Accredited reinsurer is an insurance company that indemnifies, for a premium, another insurance company against all or part of the loss that it may sustain under its policy or policies of insurance. The reinsurer, while not an “admitted” company, is “accredited” and must submit data comparable to that of a company seeking admittance.

Discount medical plan organization contracts, on behalf of plan members and in exchange for fees or dues, with a provider or provider network for access to medical services at a discounted rate. Discount medical plans are not insurance products.

Life settlement/viatical broker is an intermediary who brings together a policyowner wishing to sell a policy and a provider seeking to purchase it.

Life settlement/viatical provider serves as the purchaser in a life settlement transaction and is responsible for paying the client a cash sum greater than the policy’s cash surrender value.

Motor service club, a for-profit or non-profit organization, provides certain vehicle-related benefits which vehicle drivers or owners can enjoy.

Multiple employer welfare arrangement (MEWA) allows a group of employers collectively to offer health insurance coverage to their employees. A MEWA is most often found among employer groups belonging to a common trade or industry association or professional association.

Pre-paid funeral benefit organization assists individuals in the prearrangement of funeral services in exchange for the prepayment of the service. The prepaid funeral contract is negotiated between the buyer of the contract and the providing funeral establishment and may be funded through a prepaid funeral trust, annuity or insurance policy assignment.

Professional employer organization (PEO) provides outsourcing of payroll, workers’ compensation, human resources and employee benefits administration.

Purchasing group is a group of policyholders with similar risks who may group together to purchase liability insurance.

Risk retention group is a company licensed to provide liability insurance and is owned by its policy holders. Membership is limited to people in the same business or activity, spreading the liability exposure to group members. A Risk Retention Group provides an alternative risk financing mechanism for liability but is not covered by the Guaranty Association.

Service warranty association is licensed to issue service warranty contracts. Warranty contracts are agreements entered into between consumers and the service warranty association and include terms that cover the cost of repair or replacement of a product.

Surplus lines insurer offers property and casualty insurance coverage that is not available from insurers licensed in the state. Examples of surplus coverage include risks of an unusual nature, risks that exceed the indemnity limits of licensed insurance carriers and risks where the highest premium rates allowed by state regulators are considered inadequate by admitted companies. The surplus carrier, while not an “admitted” company, is authorized to transact business on a “non-admitted” basis and must submit a yearly request for approval. Surplus coverage is not protected by the Oklahoma Life and Health Guaranty Association.

Third party administrator (TPA) is an organization that collects premium and adjusts and settles insurance claims for life or health insurance coverage, annuities or employee benefit stop loss. Under this arrangement, a TPA is performing a task traditionally handled by the company providing the insurance.
