Special Bulletin Regarding Adjuster Renewal Deadline Extensions

As of July 14, 2010, the following CE requirements will go into effect for adjusters:

- All Resident Adjusters will now be required to complete (2) hours of Legislative Update, during each biennial renewal period.
- The (2) hour Legislative Update is included in the (24) twenty-four biennial requirement.

Special Note: The Producer Licensing Division of the Oklahoma Insurance Department implemented new technologies and improved procedures so an adjuster may renew their license up to 90 days early. The license expiration dates will not be affected. Adjuster requirements change effective July 14, 2010. **Adjusters with expiration dates of July 2010, August 2010, and September 2010** will have the ability to renew their license **prior to July 14, 2010**. License renewals processed (renewal application made, fees paid and CE completed) prior to July 14, 2010 will be allowed to complete the renewal under the current continuing education requirement.

Additional Options: In order to assist resident adjusters, whose licenses renew in the months of July 2010, August 2010 and September 2010, with an easier transition into the new CE requirement, we are implementing the following renewal deadline extension process:

- All adjusters subject to the new CE requirements with a renewal date set for July 31, 2010, will have until September 30, 2010, to obtain the required hours and renew their licenses before being considered "late." All adjusters who wish to utilize the extension must possess at least 22 hours of continuing education by July 31, 2010, in order to qualify.
- All adjusters subject to the new CE requirements with a renewal date set for August 30, 2010, will have until October 31, 2010, to obtain the required hours and renew their licenses before being considered "late." All adjusters who wish to utilize the extension must possess at least 22 hours of continuing education by August 30, 2010, in order to qualify.
- All adjusters subject to the new CE requirements with a renewal date set for September 30, 2010, will have until October 31, 2010, to obtain the required hours and renew their licenses before being considered "late." All producers who wish to utilize the extension must possess at least 22 hours of continuing education by September 30, 2010, in order to qualify.
