

CONTINUING EDUCATION: LIVE EDUCATION APPROVED FOR DISTANCE EDUCATION

Pursuant to the recent guidance of the Appraisal Foundation, and subsequent approval by the Appraisal Subcommittee, the Oklahoma Real Estate Appraiser Board will permit those courses previously approved for presentation in a classroom setting in Oklahoma to be offered remotely via distance education. No further approval is required, subject to the following:

- The educational offering is currently approved by the Oklahoma Real Estate Appraiser Board for an in-person classroom setting;
- The platform utilized for distance education is live and interactive;
- The instructor verifies photo identification of the students;
- The instructor maintains an attendance roster, which includes verifying 100% classroom attendance by taking attendance at various established times during the course; and
- When submitting your Course Announcement, please be sure to identify that the course will now be taught via distance education.

This approval has been extended through October 31, 2020. Further extensions, if warranted, will coincide with any extensions of Governor Stitt's Executive Orders related to the health crisis.
