### HEALTHCARE SERVICES NAVIGATION

Helping low-income, uninsured and underinsured clients navigate complex healthcare referral networks.

### CARE CONNECTION

Our team strategically coordinates hundreds of specialists who provide free diagnostic testing, specialty consults, and surgical care for clients of HAU partner Safety Net Clinics in Oklahoma.

### PRESCRIPTION ASSISTANCE

Assisting clients in receiving free medications to manage acute and chronic health conditions.

### SHAPES – Shared Hub Approach to Providing Enhanced Services

An original program developed by HAU and United Health Foundation to help clinics and patients with diabetes to improve their health outcomes by working with a variety of partnership interventions which include screening, behavioral health resources, self-management tools and medication therapy resources.

*An individual who loses Medicaid will have an average wait time of 12 months before they are connected back to healthcare services.*
